### **Bridge between Science and Society**

Fundamental scientific findings are likely to meet strong reservations and encounter mistrust among the general public. The Academia Engelberg Foundation ([www.academia-engelberg.ch](http://www.academia-engelberg.ch)) contributes its share to the creation of a new foundation of trust through interdisciplinary dialogue between the scientific community and the general public. Every autumn, personalities from science, industry, culture, politics and society meet in Engelberg, Switzerland. In addition to this, projects are carried out and follow-up events are organized as results of the conference.
